Immuno 150 is the Ultimate Immunity Supercharger that's beneficial for the entire family!

Several Nutritional PhD's and Doctors of Naturopathic Medicine have said Immuno 150 contains about every nutrient the body needs on a daily basis. Each of the 150 select plant based nutrients in Immuno 150 were added at the percentage thought to be most beneficial and at the maximum amount the body can assimilate efficiently. This synergistic blend provides powerful antioxidant benefits, enzyme function, protein digestion, DNA cell replication, and more to support optimal health and longevity.

The perfect nutritional supplement begins with the perfect amount and balance of 150 nutrients. That's **Immuno 150!**

SenTraMin Minerals provides 70+ Plant-Sourced Minerals that are naturally extracted from ancient vegetate with only pure water, and then freeze or spray-dried into a powder to maintain integrity. As plants and vegetation grew thousands of years ago, they chelated and metabolized minerals from the soil. This naturally occurring process is what makes our plant-derived minerals hydrophilic (water-soluble) with a negative ionic charge, which promotes maximum digestion and absorption.

SenTraMin Plant Minerals may be the most important nutritional supplement to enable the body to function properly. A complete spectrum of minerals supports enzyme function, protein digestion, and billions of chemical reactions that maintain the spark of life. Minerals are building blocks and foundation of your hair, skin, bones, teeth, blood vessels and miles of nerve receptors. Minerals also catalyze the absorption of vitamins, while helping process and breakdown carbohydrates, lipid fats, amino acids, and other key nutrients.

SenTraMin Plant Minerals are the same as found in fruits and vegetables before the depletion of our farmlands. Scientific research has found that the best organically grown foods available today contain no more than 18 minerals and contain less than 30 percent of the minerals and nutrients as compared to just 50 years ago. The human body is comprised of nearly 96 percent minerals and requires minerals to replenish cells destroyed daily. If you are missing certain minerals, your body's ability to rejuvenate itself may slow down and age more rapidly.

“You can trace every sickness, every disease, and every ailment to a mineral deficiency.” - Dr. Linus Pauling, Two-time Nobel Prize Winner

“In the absence of minerals, vitamins have no function. Lacking vitamins, the system can make use of the minerals, but lacking minerals vitamins are useless.” - Dr. Charles Northern, MD

If you are aware topsoil does not contain more than 15 to 20 minerals, which is the amount found in today's foods, then you must understand the need to supplement with minerals and lots of them. Our world famous SenTraMin contains 70 Plant Sourced Minerals that provides the additional minerals you need.

OxyActin™

Cellular Energy & Immune Support

Retail \$31.98

60 Vegetable Capsules (30 Day Supply)

OxyActin is a phenomenal product that you should take daily to stay alert, think more clearly, and give your body what it needs for immune protection and healthy cellular activity.

Powered by Anaerocidal Oxygen™, OxyActin has unequivocal antioxidant properties that also supports cellular energy, brain function, heart health, and Superoxide Dismutase (SOD). The following key ingredients are essential components of cells that are utilized by the mitochondria in the normal process of ATP energy production.

- ✓ **Oxygen (O₂)** is one of the best bacteriostats on earth. The human body utilizes oxygen in every cellular level for metabolizing proteins, carbohydrates, fats; and rejuvenating damaged cells and cleansing the blood stream of toxins.
- ✓ **CoQ10** is a vitamin-like compound called ubiquinone that supports energy, brain and heart health. It also increases singlet free radical oxygen molecules to react and combine together, supporting free radical reduction.
- ✓ **Vitamin B12** supports increased metabolism, the formation of red blood cells, and the maintenance of the central nervous system and brain function.

Oxygen is vital in order for life to exist in the majority of living organisms. The human body transports oxygen from the lungs and out to the cells in our bodies by the circulation of blood, wherein hemoglobin carries the oxygen. Cells utilize oxygen and other nutrients to create adenosine tri-phosphate (ATP), which is the organism's general carrier of energy. Without oxygen, cells would die and/or become cancerous. Good aerobic cellular metabolism is stimulated by oxygen, whereas bad anaerobic bacteria and viruses are stifled in oxygen environments.

Our Anaerocidal Oxygen™ is a proprietary blend of Calcium Peroxide, CoQ10 and Vitamin B12.

OxyActin™ also supports the immune production of Superoxide Dismutases (SOD), which are enzymes that catalyze the dismutation of dangerous superoxides into safe oxygen and hydrogen peroxide. Thus, they are an important antioxidant defense in nearly all cells. SOD also has powerful anti-inflammatory functions as well.

Try OxyActin™ Capsules daily for healthy energy, heart support and to boost your immune system! It is also great to use 30 minutes before workouts for extended energy in high altitudes, skiing, climbing, hiking and more.

Suggested Use: 2 capsules daily on an empty stomach suggested 1/2 hour before meal, 2 hours after meals.

"Trust and quality that you can depend on"

Exceptional Health Products is the supplement division of Liquid Assets, Inc., located in Broken Arrow, Oklahoma. For more than 37 years our principles have been selling high quality beneficial nutritional products under the brand names "Exceptional Products", "Liquid Life", "Body Toddy" and others. All of our products are made in FDA / GMP compliant facilities. Our promise is to make sure our products adhere to the most stringent test procedures to ensure purity, potency and stability.

In addition to obtaining numerous patents and writing several nutritional books, our principals have owned or operated businesses in various countries, including a cancer treatment hospital in Mexico, mineral mining operations in Utah, and several supplement manufacturing companies.

Liquids Vs. Capsules

Advancements in capsule manufacturing make it possible to now offer our best formulas in kosher certified "Vegetable Cellulose Capsules" that completely dissolve in your stomach acid, releasing the same powdered ingredients used to make our previous liquid products. Many people ask why we discontinued selling liquid supplements. The answer is simple, "Because nearly all nutritional ingredients in liquids lose their potency rapidly after they are produced." Some ingredients such as Vitamin C and the B Vitamins, just to mention a few, begin oxidizing immediately and deteriorate quickly to the point the product may not even remotely come close to the label claim within just thirty days after production. If you don't believe this we suggest that you test and then retest, after 60 days, any liquid nutritional product or beverage from any supplier to see for yourself how much degradation occurs. For this reason we only offer capsules with the most absorbable ingredients.
